

Scott Mackechnie, Chair of the Southampton Safeguarding Children Partnership said:

On behalf of the Partnership, I'd like to express my deep sadness for the circumstances Ted experienced.

The agencies involved in this review have endorsed the recommendations made in the report and have started working to improve practice where learning has been identified, including information sharing when children and families move across local authority boundaries. The Partnership will continue to seek assurance of progress against the recommendations and ensure all learning is embedded into future practice.
